| 51. | EPA-R5-2018-008049 | Nick Surgey | MuckRock News | 05/25/2018 | R5 | This request is in regards to the Quanta Resources site in Edgewater, NJ , CERCLIS ID NJD000606442. At a public meeting held May 22, 2018, the project manager stated that the EPA is reviewing a draft Pre-Feasibility Study report. I am requesting all documentation related to the pre-feasibility study report. This includes any documentation of sediment, surface water and groundwater sampling undertaken between January and March, 2018, and correspondence related to this data-gathering and the draft report. In addition, at the same meeting on May 22, John Prince stated that plans have been submitted to the agency regarding the installation of foundation piers or foundation piles. We are requesting all plans, drawings, reports, and other documentation included in this submittal, as well as any responses or comments to these documents by the agency. |

| 63. | EPA-R10-2018-008074 | Jeff Callis | | 05/28/2018 | R10 | Good Morning, In October of 2014, the EPA, along with the Nuclear Regulatory Commission and the Idaho Department of Environmental Quality, became involved when radioactive materials were found in an apartment unit at the Renaissance Apartments at Hobble Creek in Boise, Idaho. Two vehicles belonging to the renters of the apartment unit needed to be cleaned by the EPA of radioactive contamination. Could you tell me the year, make, and model of the two vehicles that needed to be cleaned? My request is that I be given information (notes) related to the vehicles that were owned by the residents of the apartments and cleaned by the EPA. I live in Meridian, Idaho and want to be assured that when me or anyone in my immediate family might buy a car from the used-car market that we are able to avoid unintentionally buying one of the cars that needed to be cleaned because of that incident. Thank you for your consideration- Jeff Callis |
